Professional Summary

Full Stack Developer with strong expertise in HTML5, CSS3, JavaScript, Node.js, Express.js, MongoDB, and RESTful APIs. Experienced in building responsive websites, business management systems, and scalable backend applications. Passionate about writing clean, user-friendly, and efficient web applications.

Technical Skills

Languages: JavaScript, Python, HTML5, CSS3

Frontend: React.js, Bootstrap, Responsive Web Design

Backend: Node.js, Express.js, REST APIs

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Postman, Vercel, Render

Core: MERN Stack, JWT, MVC, OOP, DBMS, CRUD Operations, Data Structures

Projects

Chakradhari Traders ERP — HTML, CSS, JavaScript, Node.js, Express.js, MongoDB Live | GitHub

- Built a complete ERP-based Business Data Management System for a trading company, serving inventory, billing, customer, supplier, and sales operations.
- Automated management of 500+ business records using MongoDB, reducing manual record maintenance and improving operational efficiency.
- Engineered secure RESTful APIs, JWT authentication, and responsive dashboards to streamline daily business workflows.

CityFix AI — HTML, CSS, JavaScript, Node.js, Express.js, MongoDB Live | GitHub

- Created an AI-powered smart city complaint management platform enabling citizens to report and track civic issues online.
- Implemented JWT authentication, role-based access (Citizen, Officer, Admin), complaint tracking, image uploads, and administrative dashboards.
- Designed scalable REST APIs and MongoDB database architecture supporting secure complaint management and real-time status updates.

Task Management System Live | GitHub

- Built a secure task management application featuring authentication, CRUD operations, and role-based access using Node.js and MongoDB.
- Managed user tasks through RESTful APIs while improving task organization and productivity.

Better City Resolution Live | GitHub

- Designed a smart city issue reporting platform during Smart India Hackathon for complaint submission and tracking.
- Built responsive user interfaces to improve accessibility and user experience across multiple devices.

Experience

Freelance Full Stack Developer May 2026 – Present
Chakradhari Traders ERP (Client Project)

- Delivered a production-ready ERP solution for a real client, digitizing inventory, billing, sales, purchase, and customer management processes.
- Reduced manual business record maintenance by centralizing 500+ records into a secure MongoDB database.
- Coordinated directly with the client to gather requirements, implement requested features, and deploy the application successfully.

Python Full Stack Development with Project Virtual Intern Apr 2026 – Jun 2026
AICTE EduSkills Academy

- Completed an 8-week Python Full Stack Development with Project Virtual Internship.
- Built full-stack applications using Python, Django, HTML, CSS, JavaScript and MySQL.

Python Full Stack Developer Intern
EduSkills Academy

Dec 2025 – Mar 2026

- Developed responsive web applications and integrated backend with MySQL.

Full Stack Development Intern
CertED Technologies – Haridwar University

Jun 2025 – Jul 2025

- Built responsive webpages and integrated frontend components with backend functionality during practical training.
- Collaborated on multiple full-stack development tasks using HTML, CSS, JavaScript, and databases.

Team Leader – Smart India Hackathon

Sep 2025 – Nov 2025

- Led a team of four members to build a smart city solution.

Education

Bachelor of Technology (B.Tech) – Computer Science and Engineering
Haridwar University

Percentage: 72%

Achievements

- 1st Position – AI Quiz Competition
- Graphic Designer – UTKARSH 2023 Cultural Fest
- Member – Trojan Club
